VERSIUS ROBOTIC SURGICAL SYSTEM

Installation & Training Workshop – Agenda

Location: Clinical Center of Montenegro, Podgorica, Montenegro
Dates: 26 – 30 October
Versius Presenter: Slavi Stefanov
Hands-on Trainer: Chavdar Dyulgerov, Nikolas Diamantopoulos

Overview: the Versius system will be delivered and installed on-site, followed by an introductory clinical presentation and a structured hands-on training program for hospital staff, organized into five teams of up to 5 participants each (URO, PED, THO, ABD, GYN). A consolidated refresher program on the final day reinforces practical skills for all teams ahead of the system's return to Bulgaria.

		11:00	Packing of the Versius system and loading for transport back to Bulgaria	Logistics

Notes

• Each hands-on session accommodates one team of up to 5 participants.

• Thursday afternoon, 29 October is an open hands-on session for the mixed teams, giving every participant additional time at the console.

There is also an opportunity for those who have already completed all tasks once to join a subsequent time slot; however, priority will be given to participants who are sitting at the robot for the first time.

• 30 October is reserved as a refresher session covering all groups.

• The system will be packed and loaded for transportation back to Bulgaria at 11:00 on 30 October, immediately following the final session.
